//

import UIKit

class thirdViewController: UIViewController {
    @IBOutlet weak var myToDoList: UILabel!

    override func viewDidLoad() {
        super.viewDidLoad()

        myToDoList.text = "My To Do List"

        // Do any additional setup after loading the view.
    }

    /*
    // MARK: - Navigation

    // In a storyboard-based application, you will often want to do a little
    preparation before navigation
    override func prepare(for segue: UIStoryboardSegue, sender: Any?) {
        // Get the new view controller using segue.destination.
        // Pass the selected object to the new view controller.
    }
    */
}

```
